

Psychology

Aubrey Taylor

Submitted by Leida Tolentino on behalf of the Psychology Department

Aubrey is a natural choice for this prestigious award. As a bright and highly dedicated student, she holds enormous potential in her chosen field of psychology which, in her own words, "helps me to go about life with a greater understanding of myself and everyone around me." Such an understanding is evident in her academic excellence, peer collaboration, participation in extracurricular activities such as the Psychology Club, and commitment to future graduate study. She will make an excellent therapist! As a department, we are proud of Aubrey's accomplishments and anxious to witness her contribution to the field.
